In case the boat was well pro vided with stores and ammunition, his wagons could return to Richmond; if anything needed, he had all that was required with him. Every preparation was made for the success of

the expedition. On Sunday the force divided, 64 men to go with Lieut, Wood, and the balance to remain with the wagons. On Sunday night the party set out in the boats and soon reached the neighborhood of the gun-

MEDICAL.

DR. JOHN BULL'S

The Latest and Most Important Discovery of the Nineteenth Century.

O MAN'S NAME IS MORE INTIMATELY CONnected with the history of the Materia Medica of the United States, or more favorably known as a pioneer in medical discovery, than that of JOHN BULL of Louis-ville, Ky. His inimitable preparation of Sarsaparilla has long stood at the head of the various compounds of that valuable drug. His compound Pectoral of Wild Cherry has become a bousehold word throughout the West and South; and his Worm Lozenges, in less than a year after their introduction, attained a reputation as widespread a- the continent of North America. But the crowning glory of his life remains to be attained in his latest distovery, or rather combination, for he does not claim to have been the discoverer of CEDROF, which is the basis of the Bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom its virtues have been known for more than two hundred years. Armed with it, the Indian blds defiance to the most deadly malaria, and handles without fear the most venomeus serpents. It is a belief with them that while there is breath left in the body the Cedron is potent to cure, no matter what the disease may be. While Dr. Bull is not prepared to indorse this extrava-gant pretension, he is nevertheless satisfied from a thor-

and its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the whole range of the Materia Medica that can for a moment bear a comparison with it in this disease. A full account of this wonderful plant may be found in the eleventh edition of the U. S. Dispensatory, pages 1387

A series of experiments, in which Dr. Bull has been termination, and he is now enabled to offer to the public a combinatian of Cedron with other improved tonics, the whole preserved in the best quality of copper-distilled Bourbon whisky, which he is confident has no equal in

for himself the virtues of a new medicine. Give the
